Recommendation for Itamar Amrany

To Whom it May Concern,

Itamar Amrany has been employed by Radius Track Corporation (RTC) since 10/1/18. During this period, he demonstrated all the qualities that employers seek in searching for promotable employees. He has an excellent capacity to quickly grasp new theories and applications and has always sought to gain additional responsibilities to demonstrate his strength of business acumen and process development.

His competence is such that, in a very short time, he earned the trust and respect of our senior designers with his work ethic and commitment to excellence. His collaborative spirit and passion to succeed make him a standout employee.

It is unfortunate for RTC that, due to economic constraints, we must restructure our organization and lose valued employees such as Itamar. It was a real pleasure to work with him and I would recommend him without reservation for any position or career that he may choose to pursue.

If you have any additional questions, please do not hesitate to call or email me.

Respectfully,

Scott Abukoff
